Professional Summary

3rd year Telecommunications student at ISITCOM (expected 2027) with hands-on internship experience deploying an MPLS backbone and EVPN services on Nokia 7750 SR OS. Built secure multi-site networks using VLAN segmentation, IPsec VPNs and access controls. Seeking a networking, telecommunications or IT infrastructure internship to contribute to network deployment, operations and troubleshooting.

Education

Bachelor's Degree in Telecommunications *2024 – 2027*
Higher Institute of Computer Science and Communication Technologies (ISITCOM), Hammam Sousse, Tunisia
Baccalaureate in Mathematics, *Private School EMI Kairouan, Tunisia* *2023 – 2024*

Work Experience

IT and Networking Intern, *Ooredoo Lac 2, Tunis* *July 2026*

• Designed and deployed a full-mesh MPLS backbone across 3 Nokia 7750 SR OS routers, configuring IS-IS and RSVP-TE for transport.

• Configured iBGP services for EVPN, L2VPN and VPNv4 to support service connectivity across the backbone.

• Implemented a VPLS EVPN service with active-active customer-edge multihoming for redundant Layer 2 connectivity between sites.

Projects

•**Multi-Site Secure Enterprise Network | VLANs, IPsec VPN, Access Control** *August 2026*
Designed and implemented a network connecting 3 enterprise sites with VLAN segmentation and full-mesh site-to-site IPsec VPNs.
Configured access controls, network monitoring and secure file sharing across interconnected sites.

•**C++ Tetris Game | C++** *May 2025*
Developed a responsive personal website showcasing technical projects, skills and experience, with navigation optimized for desktop and mobile.

•**Personal Portfolio Website | HTML, CSS, JavaScript** *April 2026*
Developed a playable Tetris application in C++ with game logic, graphical interface and keyboard controls.

Technical Skills

Networking: VLANs, Routing & Switching, IPSec VPN, MPLS, BGP, IS-IS, EVPN, IS-IS, VPLS
IT: Linux, Virtualization, Network Troubleshooting
Web, App Development: HTML, CSS, JavaScript, Java(android studio)
Programming: Python, C, C++
Tools: Git, EVE-NG, Cisco Packet Tracer, MATLAB, Wireshark
IoT: Arduino, Raspberry Pi

Languages

Arabic (Native), French (B2), English (B2), Spanish (A2)

Certifications

- **CCNA**, Cisco Networking Academy *Present*
- **AWS Cloud Practitioner Essentials**, Amazon Web Services (AWS) *January 2026*
- **Python Essentials 1**, Cisco Networking Academy *February 2026*
- **Ethical Hacker**, Cisco Networking Academy *August 2025*
- **Fundamentals of Machine Learning and AI**, Amazon Web Services (AWS) *July 2025*
- **Introduction to Cybersecurity**, Amazon Web Services (AWS) *July 2025*
